## **Together**

I hear Your voice a ringin', You call me today Hear Your words ringing truth to You will I pray, I will heed Your call I pray that we will be, together

The Sun is risin' daughter bringing healing that day And the rays that bathe the path we walk will show us the way We will walk in Your way You say that we will be, together

And the love that You shared, will be there, forever Oh glory, the glory of You Glory, the glory of You

I turn my back upon the world to do what You say Feed the poor and heal the sick and I am Your clay I will follow You Yah, and we will be, together

And the love that we share, will be there, forever Take us home
